Our product instructions constitute general guidelines, based on average values, and do not apply to applications under special conditions or stresses. Suitability for the intended purpose and local conditions must be verified in advance by the user. The processing instructions on the label must be observed. Approvals from employees are only accepted in the written form. We deliver and are liable exclusively on the basis of our Terms and Conditions of Sale and Delivery. Please refer to our safety data sheets for more information. Errors and omissions excepted. Illustrations and colours are not binding.

ANTI-RATTLE PADS

PRODUCTS FOR ROAD INSTALLATIONS

ANTI-RATTLE PADS reduce vibrations, shocks and annoying rattling.

1 Open the rattling manhole cover.

2 Clean the rebate using air or suitable tools.

3 Insert the ANTI-RATTLE PADS (min. 3 pieces).

4 Close the cover.

CONSUMPTION

3–4 pads per manhole.

PRODUCT INFORMATION

| Product | Packaging | Packing unit |
|------------------|-------------|------------------------------|
| ANTI-RATTLE PADS | 50 pads/box | 1 box/30 boxes in an overbox |

The ANTI-RATTLE PADS are characterised by strong damping characteristics.

The ANTI-RATTLE PADS are made of biological reactive bitumen and fit ALL manhole covers and gate valve caps.
